IT CAUSED AN UPROAR.

Stirring Scenes In Chamber of Deputies at French Capital.

DENOUNCED BY ROYALISTS.

Owing to Bitter Attacks on President Loubet It Became Necessary to Expel the Chief of Anti-Loubet Speakers.

Paris, June 5.—The chamber of deputies met at 2 p. m. The public galleries were crowded with fashionable people including many ladies in pretty toilettes, who pined their fans vigorously on account of the heat. The galleries of the senators and diplomats were also full. There was a large and early attendance of deputies, who discussed the incidents of yesterday. Premier Dupuy and the minister of justice, M. Lebret, sat on the ministerial bench. M. Lalogue who moved the interpellation, rose at 2:25 p. m. and said the hour of action had been struck.

This caused cheers from the Leftists and murmurs from the Rightists, and a babel of cries, in which M. Cassagnac and Lasies, anti-semites, participated. M. Lalogue asked the premier if he had been warned beforehand of Sunday's demonstration. He then eulogized President Loubet, who, he said, undertook the presidency in a time of stress.

M. Rious Largentayo, conservative, shouted, "Loubet is not honest; he is a Panamist."

This statement called forth violent protests and shouts of "Order," but M. de Largentayo persisted in spite of the uproar in declaring honest men were arrested Sunday.

This was followed with shouts of "Down with Loubet," and a scene of wild excitement ensued. The Leftists shouted at the tops of their voices: "Censure with temporary exclusion?" President Deschanel ordered M. de Largentayo to withdraw, but the latter refused and the session was suspended, the deputies being requested to withdraw in order that M. de Largentayo might be expelled.

The commanding officer on duty at the Palais Bourbon then entered the chamber of deputies with a squad of soldiers and requested M. de Largentayo to withdraw. The latter waited until many of his colleagues had left the house then rose and walked out escorted by the soldiers.

There was cheering and counter-cheering when M. de Largentayo appeared in the corridor. The sitting was resumed. M. Lalogue asked what measures the government intended to take in the future and the premier replied that after Sunday's incidents his first step was to address a respectful greeting to the nation-elect and to the "firm citizen who was and who remains the guaranty of republican communion."

Continuing, the premier said that Sunday, at Autenil, the advance guard of the reactionary party protested against him and called for his resignation and proceeded to enlarge upon "the coarseness of such a demonstration against an invited guest."

Proceeding Against Esterhazy.

Paris, June 5.—The minister of war, M. Krantz, has ordered proceedings to be taken against Esterhazy for obtaining and using documents connected with the so-called "secret dossier" and the minister has also issued instructions that proceedings be taken against General Pellieux for the manner in which he conducted the Esterhazy case. The minister of justice, M. Lebret, has written to the president of the chamber of deputies, M. Deschanel, calling his attention to the reference in the decision showing documents connected with the Dreyfus court martial, in order that the chamber may decide whether Mercier is to proceed against for an unlawful act committed while he was minister of war.

Esterhazy's Claims.

Paris, June 5.—The Matin publishes an interview with Major Count Esterhazy, in which Esterhazy accuses Lieutenant Colonel Du Paty de Clam of having for safety placed in his mother-in-law's house at Brussels the extraordinary documents which protect them both. Notably a long report by General Conz, discussing the plan to be followed in order to screen Esterhazy.

Philadelphia, June 5.—Frank P. Mellon's feed and grain store was destroyed by fire and six firemen were hurt. The injured are: Richard Berry, acting assistant chief; Edward Ralston, Harry Parker, Chris Daly, Patrick Mo-bann, James Doan. The origin of the blaze is unknown. Loss about \$5000. Years ago the feed store was a famous dramatic hall known as the Drawing Room.

KIDNAPERS INDICTED.

The Persons Implicated in Stealing of Marion Clark Held.

New York, June 5.—The grand jury has returned an indictment in the kidnapping case of Marion Clarke. It is said that the indictment is against Bella Anderson and James and Jennie Wilson. Judge Newburger refused to allow the indictment to be seen on account of the persons indicted being under arrest in this county.

Death and Distress.

Port Townsend, Wis., June 5.—Another confirmation of the death and distress on the Edmonton range is brought by J. F. Storey, of Ontario, a passenger on the steamer Dierlgo. Storey, with three others started for Dawson seventeen months ago over the Edmonton route, but were unable to get through. He says there is a section of country between Peace river and Nelson that was never travelled by a white man or Indian. The country is one continuation of swamps and sloughs. For weeks he and his companions slept in clothes and blankets saturated with water. The twenty-one head of horses with which they started died and they were compelled to retrace their steps. At Liard river they found 30 men suffering from frost bites and scurvy. Some had turned black as far up as their thighs. At every camp they found sickness and distress. They gave out their provisions until they ran short themselves. For six weeks they lived on rabbits which they snared.

Signal Officer Report.

Washington, June 5.—Reports from the chief signal officer and from Manila and from Major A. C. Devoil, of the quartermaster department, were made public by the war department. The report of the signal officer sketches in considerable detail the work of the signal corps in the islands and speaks in terms of high praise of the work of both officers and men. A number of instances of rapid work and distinguished bravery on the part of officers in the fight at Calocan, where the laying of a long line of wire was necessary, a signal office was set up at the extreme front and was doing business in a few minutes after the action ceased. In the fight at Tondo an office was opened and doing business in the heart of the town before any attempt was made to put out the fire.

Left to Governors.

Washington, June 5.—The war department has solved the question as to the disposition of the artillery captured from Spain in Cuba and Porto Rico by turning the whole matter over to the governors of the states. Very many applications have been received at the department for the gift or loan of these guns and the pressure has been renewed since the navy department made known the fact that all of its guns had been disposed of. The law under which these guns can be distributed provides that they may go only to the Soldiers' Monument associations, Grand Army posts and municipal corporations. One gun will be allotted to each state and the governor is asked to decide what disposition shall be made of the gun for his state.

Troops Called Out.

Griffin, Ga., June 5.—Pistol shots were heard in all parts of the city directly after midnight and investigation proved that the firing was the signal for the "regulators" to assemble, the object being to rescue their fellows who are in jail indicted by the grand jury last Friday for the whipping of negroes. Their trial was set by Judge Reagan for Monday, June 12. The sheriff telephoned to Governor Candler at Atlanta asking that he call out the military to protect the jail and members of the Griffin Rifles were hurried to the jail. Intense excitement prevailed. Later the soldiers were dismissed.

Trial Deferred.

New York, June 5.—The examination of George B. Barrow, alias James Wilson, and his wife, charged with abducting Marion Clark, was to have taken place at Garnersville, but it has been deferred. Irving Brown, counsel for the accused, said: "We did not expect any sensational features at this hearing, but merely a simple rehearsal of the crime and the capture. My clients would rather be tried here than in New York, and we believe we can mete out as thorough justice here as in New York county."

Grand Jury Instructed.

Indianapolis, Ind., June 5.—Fremont Alford, judge of the criminal court, instructed the county grand jury that if any evidence should be presented to it showing that a professional game of baseball had been played in the county on Sunday, it would be the sworn duty of the jury to indict the players. He pointed out that the Supreme court had held the law prohibiting the playing of professional baseball on Sunday to be valid.

CONFESSION OF GRIMES.

Part Played by a British Subject in Aiding the Filipinos.

THE CONTRACT FOR RIFLES.

After Considerable Annoyance the Agent of a Firm at Shanghai Supplied the Insurgents With Arms and Ammunition.

Washington, June 5.—Captain Joseph Henry Grimes has made a complete confession of the part he took in aiding the Filipinos and the document is in the possession of the government.

He is a British subject, born in Hongkong, 29 years ago. He was office manager at Shanghai for L. Seitzel & Co. and there became acquainted with the agents of the Filipino rebellion.

On June 7, Grimes firm contracted with Agoncillo to supply 5000 Mauser rifles, two Maxim guns, 1,000,000 cartridges, the steamer Pasig and provisions, etc., at a cost of \$133,000. The outfit was seized by the British authorities at the request of the Spanish consul.

Then, says Grimes, B. F. Sylvester, a member of his firm, arranged with Edward Bedlo, American consul at Canton, to send the arms to that point, by means of a false sale to the Chinese government.

The Chinese viceroy was to reject, but as it turned out he seized 4,500 and kept them to suppress a rebellion in his own territory.

The local authorities refusing permission for the Pasig to sail she was transferred from British to American register by Consul Bedloe, her name changed to the Abbey, and Bedloe cleared her and the supplies for the Filipinos for Singapore. On August 27, the Abbey, flying the American flag and commanded by Captain G. W. Ellis, an American citizen, left Whampoa, 15 miles from Canton. On board was Lewis Leonard Etzel, the American citizen whose mission it was to teach the Filipinos how to use the Maxim gun.

Sylvester, Grimes asserts, falsely told him that the facts about the expedition were known to Admiral Dewey and Consul General Wildman.

The cargo was taken to Santagas, 80 miles south of Manila, and turned over to the insurgent governor of that town. It consisted of 496 rifles, 50,000 cartridges, two Maxim guns and 2,000 rounds of Maxim ammunition.

After discharging the cargo, Grimes went to Baco, where he met Aguinaldo, who said he wanted more ammunition. Grimes returned to Hongkong, but was not successful in his further plans.

Sylvester visited Aguinaldo and failed to conclude a contract with him to procure arms in Germany.

"It will be seen by the above statement," Grimes says, "that both Sylvester and Etzel plotted on American soil against the American government."

The Abbey was seized about September 25 last by the American revenue cutter McCulloch which was attacked to Admiral Dewey's flotilla. Grimes was arrested in Manila on November 5.

Protestants Threatened Trouble.

Belfast, June 5.—There were exciting scenes here in consequence of the Nationalist demonstration headed by Mr. William O'Brien and accompanied by bands of music and the display of banners. The active Protestants threatened trouble, with the result that large bodies of police and military were stationed in the street. Several conflicts took place and the infantry charged the place with fixed bayonets. Several persons were injured.

Are Keeping Silent.

Washington, June 5.—No definite information was obtainable as to the subject of the discussion during the conference at the White House between the president, Acting Secretary of War Melkjohn and Adjutant General Corbin. The latter refuses to refer to the matter in any manner. Mr. Melkjohn says the dispatches received referred exclusively to future military movements which it would be impolitic to make public.

No Trouble Reported.

London, Ky., June 5.—There was no trouble up to noon at Manchester, where the Baker boys are being tried. Colonel Williams, in command of the troops sent to guard the court house, is camped with his men near the building and is ready for action. Sentinels are on guard to keep the Howards, Whites and Bakers out of the town.

The society consists of 747 fellows and 20 honorary members. A number of additional fellows were elected. The rotunda of the state-house is filled with medical curios of all kinds and latest medical devices.

New Invention For Metal.

Cleveland, O., June 5.—James H. Bevington, a Cleveland inventor of note, has completed a new device for spinning metal which promises to work important changes in various lines of metal manufacturing. The principle upon which the discovery is based is extremely simple. The metal that is spun is in tubular form and is placed in a lathe which turns at the rate of 1,800 revolutions a minute. In a moment the metal becomes hot and softens from the friction and can be shaped by the operator according to his wishes. The tool, which consists of hard steel jaws touching on either side of the revolving tube, can be readily gaged to any desired width and the softened metal may be spun down by means of pressure to any size or any shape, so long as a circular form is retained.

New Incorporations.

Columbus, O., June 5.—The Salum Methodist Episcopal church, New Knoxville; The Hickory Grove Cemetery association, Big Lick township, Hancock county; the United Gas company, Cambridge, increase of capital stock from \$150,000 to \$300,000; the Trumbull Law Library association, Warren, capital stock, \$5,000; the Northern Ohio Amusement company, Cleveland, capital stock, \$10,000; the J. The young men, in company with Oliver Mercer, all of Union township, were crossing the double track at the Charles Wording crossing, near Union station. Mercer noticed the passenger train approaching rapidly down grade. He jerked one line and sprang from the buggy and succeeded in getting the horse off the track, but the engine struck the vehicle, killing the two occupants.

Trial of Paul Zeltner.

Bowling Green, O., June 5.—The trial of Paul Zeltner, one of the Hoytville Germans who shot and killed Attorney Elias H. Westenhaver, of North Baltimore, begun here. Judge Schaufelberger, of Tiffin, is on the bench, as Judge Taylor, who has been holding court here, was formerly the law partner of the murdered man. The prisoner is defended by Hon. E. T. Dunn, of Findlay, and Dunn & Ramsey, of Toledo, while prosecuting Attorney McClelland is assisted by Judge J. O. Troup.

Prize Poet at the Pen.

Columbus, O., June 5.—F. W. Dean, a Seneca county convict, was awarded the first prize in the prison poets' contest. Warden Coffin offered a prize for the convict writing the best poem on "Flowers," and Dean won. Five hundred convicts took part, although 300 sent unassigned and scurrilous roasts upon the prison management.

Nation's Congress of Mothers.

Philadelphia, June 5.—The officers and executive board of the National Congress of Mothers have decided upon Des Moines, Iowa, May 23, 1900, as date for the next congress. It is expected that the congress will exceed in interest and usefulness any previous meeting.

TOWED UP PASIG RIVER

Two Battalions of Washington Troops Sent Against Enemy.

INSURGENTS DRIVEN BACK.

While the Americans Were on Their Way to Morango, the Filipinos Attacked Them With a Shore Battery at Anconana.

Manilla, June 5.—Two battalions of the Washington troops under Colonel Whalley on board canoes were towed from Pasig to Morong on Sunday and landed under cover of a well directed fire from the "tinclad" army gunboats Napidan and Covadonga.

The enemy who were entrenched in the outskirts of town reserved their fire until the troops were ashore and in the open. The American artillery opened fire on the insurgents and drove them from their positions, killing nine of them and wounding five. The western troops then took the town and the enemy fled to the hills.

While the Americans were on their way to Morango the insurgents opened fire from a shore battery at Anconana, their first shots striking the Cavadonga's awning at a range of 3,500 yards. The Napidan also was fired at.

Object of Lawton's Movement.

Washington, June 5.—In dispatching General Lawton to capture Morong, Major General Otis is understood to have the purpose to destroy or drive back the strong force of insurgents which has been operating from that section against the Pasig river line. There is no expectation here that Lawton's column will go far from the rivers or lakes upon which supplies will be carried to him. The authorities appreciate the extreme difficulties of a campaign during the rainy season and all they expect is that the American forces will make short incursions into the enemy's country breaking up any large organizations which may establish themselves in the vicinity of Manila especially near Laguna de Bay.

Movements of Admiral Dewey.

Hongkong, June 5.—Admiral Dewey left the Peak hotel and returned to the Olympia. He paid farewell calls to the governor, General Gascoigne and the commanders of the warships in the harbor. Admiral Dewey's health has been considerably benefited by his residence at the Peak. He has refused all social invitations and has taken a perfect rest. The Olympia will sail at 4 p. m. The Hawaiian press gave General Egan a very warm reception. The Sunday Volcano, a weekly journal printed at Honolulu, thus extends its compliments: Egan, the canned beef scapegoat of the Administration, the man with the loud mouth, is in town. He was dismissed from the army by court-martial. The Volcano dismisses him from its columns. He was saved from decapitation by McKinley. He is received here as the lion of the hour. But he is horse-meat and a poor quality at that. Give him a wide berth. He it was who killed more Americans soldiers in Cuba than Spanish bullets did. He stinks.

IN TROUBLE.

Dr. Carl Wheeler, Formerly of This County, Charged With Desertion—Was Received by a Brother Physician.

Dr. Carl Wheeler, formerly of Mayslick, was arrested Sunday at Lexington on a charge of desertion preferred by Col. Roger Williams, of the First Regiment Kentucky State Guards. The Herald thus tells of the case: "Dr. Wheeler was appointed assistant surgeon of the regiment several days ago, and when the regiment was ordered to Manchester he was ordered to accompany it in lieu of Dr. Carrick, the surgeon, who was detained because of illness. Dr. Wheeler went to the train Saturday morning to accompany the men, but after he reached there he learned that he would be required to remain away from his practice longer than he anticipated, and on the spur of the moment decided not to go, and having no chance to notify Col. Williams before the train left to send another surgeon, did not do so."

Dr. Wheeler, when asked his reasons for not accompanying the troops, said: "Dr. Carrick, surgeon of the regiment, came to me and asked that I accept the appointment of assistant surgeon and go to Manchester with the soldiers. He said that he could not go because of illness. I asked him what length of time I would remain, and he said four or five days. I agreed to accept the appointment and so notified Col. Williams, and went to the train last Saturday morning with the intention of going, but when I reached there I learned that I would probably have to remain several weeks and immediately decided not to go."

"I did not notify Col. Williams of my intentions because he was busy at the time, and before I saw him the train had left. I am extremely sorry that I have made a mistake, but I can assure you that it was wholly due to being misinformed as to the time I would be compelled to remain away from my practice."

The street railway company requested that John Prendergast be sworn in as special policeman at the street car barn, he to serve without pay from the city.

The following communication was presented:

To the Mayor and President of the City Council, and those who represent that honorable body in Council: We the undersigned would say that it is the purpose of a number of the representative ladies of the city of Maysville to establish a public library that will be so clean and orderly and presided over by so courteous a lady that it will be a positive pleasure to all the citizens of Maysville and the county around and even the strangers within our gates to visit it. This committee of ladies has already sent out eight ladies to canvass the city, and will do the same for the county, so soon as the necessary arrangements can be made—making a "from house to house" canvass with the view of soliciting the interest of the public in this work and giving it the opportunity for aiding therein by the purchase of annual tickets for use in this library. Money raised will be appropriated for the rent of a room and the services of a Librarian. For the purchase of books, this committee looks with anxious eyes to your honorable body, which holds in trust a fund known as the "Greenwood fund," which was left in your hands with the express stipulation that it was to be used "to establish, or to aid in the establishment of a public library for the city of Maysville."

What we now wish, is that the sense of your honorable body shall be ascertained by consultation or vote on the feasibility of allowing to this committee the annual use of the interest which accrues to the city from the fund, to be spent in the purchase of books for the new and really public library. Also we wish that a committee of two or more of the members of your honorable body be appointed, to be associated with a like number (or one less) of ladies from our committee in the management and use of this interest—the controlling power being always in the hands of your honorable body. We respectfully submit the above petition to your hearing and pray that immediate action be

taken thereon and a reply be returned to the Ladies Committee at as early a date as possible.

THE BEST

Is always the cheapest, but we cannot sell you the best and noblest Clothing for less than they cost us. We do not make our money that way. Some people get rich by selling goods for less than they cost them, because they sell so many of them (so they say). We have never been able to get rich, and we sell for a small profit above cost to us, but we increase our trade year by year because we sell the best for the price, no matter whether it is our medium or best grades of Clothing. We expect to remain in business right here in Maysville, and we expect to continue giving our patrons better goods for the money than they can possibly buy elsewhere, no matter what statements are made in printers' ink by others. We represent everything honestly and depend on your good judgment whether our policy is good or bad. We are satisfied with the results. If you want a suit in the latest style, made first-class, price, color, wear, all guaranteed, for \$10.00, \$12.50, \$15 and up, then you want to see us.

TOLLGATES RESTORED,

And Guards Appointed to Protect Them.
The Lexington Turnpike Case to be Heard Thursday.

The county's lease of the Mason and Bracken, the Maysville and Lexington and the Maysville and Mt. Sterling turnpikes expired Monday, and the negotiations for the purchase of the roads having failed, the tollgates were restored to-day and the collection of toll was resumed by the companies.

The companies applied to Judge Harbeson Monday afternoon for guards to protect the gates and bridges. They asked for ten guards for each gate and bridge, or a total of about 110 guards. Judge Harbeson granted five guards for each gate and bridge on the Lexington pike and three for each gate and bridge on the other two roads, and fixed their appointment for fifteen days. Under the law the Judge has no option in the case; he must appoint guards on proper affidavit and application.

It is regretted that the negotiations for the purchase of these roads have not proved successful. The people of the county, however, should demonstrate by their conduct that they are a law-loving and a law-abiding people, and patiently await a solution of these vexatious matters.

Notice was filed in the Circuit Court Monday in the Lexington turnpike case to dissolve the injunction sued out by Col. Baldwin and his board of directors to prevent the new board from acting or taking charge of the road. By agreement it was set for trial Thursday. The new board has employed Hon. E. L. Worthington, of this city, and Bronston & Allen, of Lexington, and a warm legal fight is anticipated.

Messrs. R. R. Maltby, Charles Owens, A. T. Fox, Lewis H. Jenkins, G. A. McCarthey, John W. Holliday, John Otto, Jas. K. Lloyd, James Rumford, Geo. Hancock, John R. Burgess and Timothy McAuliffe compose the present grand jury.

One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." THE TIGER TOBACCO TRANSPLANTER.

Makes the farmer absolutely independent of the weather. He sets his plants when he gets his ground ready, rain or shine. The superiority of the Tiger over all other Transplanters has been plainly demonstrated during seasons of severe drouth, when experiment proved it to be the only machine that could be depended upon to give a good stand of plants under any and all weather conditions. With the TIGER the plants are properly set. The roots are in the puddle formed by the water, loose earth being forced down around and above the plant. In effect the water valve on the TIGER stands still at each hill long enough to pour the water precisely where it is wanted—a feature that cannot be duplicated by any machine devised by man. THE TIGER PUTS THE WATER JUST WHERE IT IS NEEDED—AT THE ROOTS. There are many superior points on the TIGER that makes it far ahead of any other Transplanter ever put on the market. We ask your inspection of same and that you place your order at once, as the factory could not supply the demand last season and we, ourselves, were only able to get a portion of our orders filled. So do not delay, but place your order with us at once, that we may be able to supply you before our stock is exhausted. Remember first come first served.

HAND IN YOUR NAME

If You Want Work—Shoe Factory Will Need at Least 450 Hands If It is Started.

Maysville has a prospect of securing a big shoe factory, but the parties backing the enterprise must first know whether the city can furnish the number of hands required before they will take any decided steps in the matter.

They will need from 450 to 600 hands and in order to ascertain whether that many hands can be obtained here lists were opened several days ago where those who wish employment might register their names. At last accounts about 350 names had been enrolled.

Don't delay, but attend to this matter at once. If you know of any one who wants employment and who has not registered see that he or she is enrolled immediately.

Those who enroll their names will be given the preference if the factory is started.

It is not necessary to be a skilled hand; you can soon learn the work. The lists can be found at the following places:

R. M. Wallingford's grocery.

ENGINE 703 of the Big Four passed down over the C. and O. Monday, en route to Chicago, on a trip that is breaking world's record. It is the strongest and heaviest locomotive on earth. Nine counterparts of 703 have been ordered by the C. and O.

When a boy turns his bulging pocket inside out we marvel at the quantity and variety of articles he has stowed away. Odd length of string, marbles, a horse-chestnut, a top, brass nails, hickory-nuts, an apple, and many more articles are garnered by this "snapper up of unconsidered trifles." We think the collection must be hard on a boy's pocket, and it is. But do we ever think of the variety and miscellany of the substances we put into the pocket of our stomach? There's the apple and the nuts, and things besides quite as indigestible as brass nails and with no more food value than so many marbles. And yet we wonder that the stomach "gives out." When the stomach breaks down under the strain of careless eating and irregular meals it can be perfectly and permanently restored to health by the use of Doctor Pierce's Golden Medical Discovery. The action of this medicine on the stomach and other organs of digestion and nutrition is so marked that relief from disease is at once experienced, and the headaches, liver "troubles," kidney disorders, skin eruptions and other symptoms of a diseased stomach are quickly cured. Whenever the use of a laxative medicine is indicated, use Dr. Pierce's Pleasant Pellets. They act in harmony with the "Discovery" and assist its action by purging the bowels of foul accumulations.

Quarterly meeting at M. E. Church, South, will be held this week. Presiding Elder Vaughn will preach Tuesday night, and Wednesday, day and night.

For the first time in the history of our town we have had a memorial day. For the first time have we a cemetery of which our people are not ashamed. From every direction the people came, parents and children, young and middle aged, the rich and the poor, with their baskets of flowers to adorn the resting place and freshen their memory of the loved and lost. So freely were flowers distributed that a great portion of the cemetery presented the appearance of a large flower garden. Surely such beautiful ceremonies must tend to lessen the terrors of death and convince the living that loved in life, they will not be forgotten in death. The exercises were held in the Christian Church, under the management of a committee of the Knights of Pythias, and consisted of an opening prayer by Rev. Grider, followed by several speeches by visiting brethren, interspersed with music by the Augusta band, and rendering of beautiful and appropriate songs by our home talent, in their usual artistic style.

To the lodge of Knights of Pythias of our town are we indebted for the improved and neat condition of our cemetery, and I know that I but echo the feelings of gratitude that will ever live in the hearts of our people to the noble order whose generosity and kind consideration has given us a place of sepulture, which, although it is sad, lonely and sorrowful, yet is beautiful and lovely to look upon.

The green grass will grow with each returning springtime, kind, affectionate hands will tenderly place bright, sweet flowers, the soft summer breeze will sigh, and the cold wintry winds will moan their mournful requiem above the graves of loved ones, expensive marble will be erected to mark their resting place, whose inscriptions are as letters written in the dust, that relentless time, the leveler of all things will eventually crumble into dust, but this sacred burial place will last through future ages, and generations yet unborn will arise to bless the memory of these noble people who bequeathed to their care so precious an inheritance.—Augusta Chronicle.

PITHY POINTS.

The man who can't see that trusts are the offspring of the gold standard is yet in the swaddling clothes of discomfitment.

The man who can't discern the relationship between the gold standard and trusts ought to take his first lesson in common sense.

Trusts are the creatures of the gold power.
